PROFESSIONAL SUMMARY

Computer Science graduate (EWU, 2026) specializing in Data Science with hands-on expertise in MERN stack development and applied ML research. Author of two accepted international conference papers in Computer Vision. President's Scout Award recipient. Seeking software engineering or data science roles to build scalable systems and data-driven solutions.

EDUCATION

East West University

BSc in Computer Science and Engineering

Aftabnagar, Dhaka-1212, Bangladesh

Feb 2022 – May 2026

Major: Data Science

Dr. Mahabubur Rahman Molla College

Higher Secondary Certificate (HSC)

Jatrabari, Dhaka-1362, Bangladesh

2020

Shamsul Haque Khan School and College

Secondary School Certificate (SSC)

Demra, Dhaka-1362, Bangladesh

2018

PROJECTS

Medivo – Medical Camp Management System

[Live Demo](#) [Client](#) [Server](#)

- Built a full-stack medical camp platform handling registration, scheduling, and participation tracking across multiple camp activities
- Implemented dual role-based access control (User/Admin) with protected routes to secure sensitive operations; secured authentication with **Firebase Auth + JWT**; integrated **Stripe** payment gateway for camp registrations
- Improved data fetching with **TanStack Query** and **Axios** for seamless client-server sync

EWUFindHub – University Lost & Found Platform

[Live Demo](#) [Client](#) [Server](#)

- Developed a campus-wide lost-and-found web app for students to report, track, and recover missing items via a structured digital workflow
- Designed admin-gated confirmation with multi-step claim verification to prevent false releases and ensure secure item handover
- Built User/Admin role-based flows covering item posting, claim requests, status updates, and resolution management
- Architected RESTful backend with TanStack Query and Axios for consistent, predictable API communication

Jasmine Event Explorer

[Live Demo](#) [Repository](#)

- Built a responsive event management SPA with client-side routing, Firebase Authentication, and protected route access control
- Designed a fully responsive, component-based UI using **Tailwind CSS** and **DaisyUI** optimized for cross-device compatibility

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, C, C++

Frontend: React.js, HTML5, CSS3, Tailwind CSS, DaisyUI, Responsive Design

Backend: Node.js, Express.js, REST API Design, TanStack Query, Axios

Databases: MongoDB, Oracle SQL

Auth & Security: Firebase Authentication, JSON Web Token (JWT)

ML & AI: TensorFlow, Scikit-learn, NumPy, Pandas, Matplotlib, Seaborn, StatsModels, Computer Vision

Deployment & Tools: Netlify, Vercel, Git, GitHub, Figma, Canva, Microsoft Office

PUBLICATIONS & RESEARCH

Automated Detection and Classification of Electronic Components

Conference: International Conference on Electrical, Computer and Communication Technologies (ECCT 2026) | [Certificate](#)

MangoLeViT: Self-Supervised Vision Transformer for Mango Leaf Disease Classification

Conference: 1st International Conference on Power, Electronics, Communications, Computing, and Intelligent Infrastructure (PECCII 2026) | Accepted: 08 May 2026

HONORS & AWARDS

- **President's Scout Award (2018)** – Awarded by the President of Bangladesh, highest national scouting honour – [View Certificate](#)
- **Bangladesh Scouts Community Development Award (2018)** – [View Certificate](#)

LANGUAGES

English (Professional Working Proficiency), Bengali (Native Speaker)
